

9 March 1976

NOTE FOR CFI PRINCIPALS

The attached provides background information as a basis for 3/11/76 CFI discussions on the proposed definition of NFIP, the CFI budgetary and resource control process, and reprogramming guidelines. It contains:

- A short paper on the two principal methods of budgeting in use (Tab A)
- Three options on how the CFI might discharge its resource control obligation as well as pros and cons of each option (Tab B)
- The draft CFID originally prepared by ICS to stimulate Community discussion (Tab C)
- Staff comments on the draft CFID from the Community (Tab D)

STAT The agenda item will be introduced by a short briefing by []
[] IC Staff, followed by a discussion. Hopefully, the CFI will,
as a result of that discussion, provide guidance on the resource
control concept it wishes to adopt.
